Comments.

50X1-HUM

- (1) It is possible that there were troops at Letzling Heath for a short period of training in late March 1951. The information does not indicate which troops participated in these exercises.
- (2) The shipments again confirm the movement of the 6th Arty Div of the IV Arty Corps from the Rathenow area to Altengrabow between 12 and 20 April. 50X1-HUM
- (3) The train was one of those which carried components of the unidentified artillery division of the IV Arty Corps from Potsdam to Wildpark on 16 April. 50X1-HUM
- (4) Since elements of the 10th Gds Tank Div in Krampnitz were rotated from Satzborn to Letzling Heath for short periods of field training in late March and early April, it is possible that troops of the 10th Gds Tank Div may again have moved to Letzling Heath. Uchtspringe is situated on the northern edge of Letzling Heath. 50X1-HUM
- (5) The train was one of the series of trains carrying elements of the 7th Gds Tank Div from Rossau to Letzling Heath between 14 and 22 April.
